### Experience Summary

Hello, you can call me Kaio Deodato. I'm Brazilian, but I've been living in Portugal for 5 years. I've been a 4 years graphic designer, and at the year of 2022 I finally decided to invest in my dream of becoming a programmer. I already studied older languages like fortran and some time ago I took a good look at python, but last year I made javascript my main focus. Since then I've been studying this language from home, as well as its closest tools, CSS and HTML, through courses provided by Free Code Camp and Danki code institutions.
